

I am an Indiana resident and signed for the no call list when it started. I for one do not want any changes made to the Indiana law that could weaken the law that I have waited for and enjoyed since it started. It is a great pleasure to enjoy the supper and evening with the family without nuisance interruptions. I feel that I should have the right to give my home phone telephone number to the persons or businesses that I feel need it. I do not want my number used as a marketing tool. Thank You. Roger Tinti Mishawaka, Indiana
